

XMEDIUSFAX® CONNECTOR FOR XEROX EIP

Multifunction printers (or MFPs) are an essential part of today's business infrastructure. Many companies are taking advantage of the ease of combining printing, copying, scanning and faxing functionalities in a single peripheral.

XMedius has designed connectors that enable the seamless integration of its fax solutions with Xerox multifunction printers (MFDs). Through the use of a XMedius developed connector based on the Xerox Extensible Interface Platform (EIP), the functionality within the EIP-enabled Xerox MFDs is extended to include value added faxing capabilities from the XMediusFAX® On-Premises and Cloud Fax solutions.

The XMediusFAX® Xerox EIP connector is the latest solution allowing Xerox EIP compatible multifunction printers to fax documents through XMediusFAX®'s On-Premises and Cloud solutions. The connector is compatible with XMediusFAX® versions 6.5.5 and above, as well as XMediusFAX® Cloud.

The XMediusFAX® Xerox EIP connector allows users to easily fax documents from multifunction printers and digital copiers networked on a PSTN- or VoIP-based infrastructure. Users can benefit from many features found in XMediusFAX® On-Premises or Cloud solutions, available directly on the MFP console. For example, users can select recipients from the Fax Service phone books and add new entries to their personal contacts.

SUPPORTED VERSIONS

All Xerox MFPs deploying XMediusFAX® Xerox EIP connectors must:

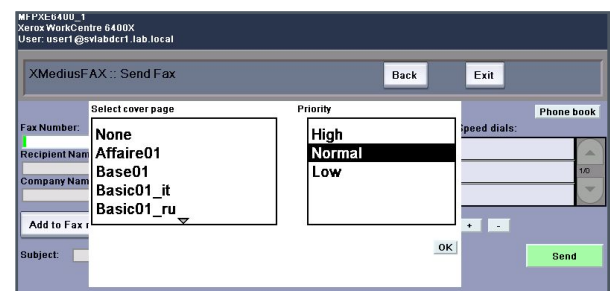

- Support the EIP version 1.0, 1.5 or 2.0.
- Have a minimum user interface resolution of 800 x 480 pixels.
- Be SSL capable.
- Have an active fax service account with XMedius (for Cloud-Based fax solution only).

CONNECTOR BENEFITS

The Xerox EIP connector accelerates and streamlines document management. The connector creates audit trails to facilitate regulatory compliance, while greatly reducing telecom, long-distance and fax hardware costs; it also offers a rapid ROI. With the Xerox EIP connector, users can benefit from the feature rich XMediusFAX® On-Premise and XMediusFAX® Cloud solutions directly from the Xerox MFPs associated with a network.

FUNCTIONALITIES	BENEFITS
Follow-You Fax feature	<ul style="list-style-type: none"> This feature allows authenticated users to directly access a list of faxes from the console of any network connected Xerox MFP and print them as needed regardless of the office location
Traceable faxes	<ul style="list-style-type: none"> All faxes can be tracked, logged and archived
Fax authentication methods	<ul style="list-style-type: none"> A number of fax user authentication options can be configured to ensure security: <ul style="list-style-type: none"> - Default user (without password) - FaxServer (XMediusFAX® internal user address and password) - External authentication methods (Active or other Directory)* <p style="text-align: right;">*On-Premises version only</p>
Encryption features	<ul style="list-style-type: none"> Communication between the XMediusFAX® Xerox EIP connector and XMediusFAX® is always encrypted The encryption features enable privacy and compliance (HIPAA, Sarbanes-Oxley)
Smart intuitive MFP panel interface	<ul style="list-style-type: none"> The single intuitive interface on the MFP panel allows seamless interoperability and product compatibility Time is saved by extending advanced capabilities found within the fax server solution onto the MFP, including: phonebook, cover sheet selection, user preference, billing codes, etc.
Direct delivery to authenticated recipient inbox	<ul style="list-style-type: none"> The employees' efficiency is increased as they no longer have to wait by the MFP for fax confirmation The privacy of the fax is protected by ensuring delivery to the intended recipient
Real-time fax queue access	<ul style="list-style-type: none"> Users can get real time access to their faxing activity from any multifunction printer across all office locations on the network
Administrator control	<ul style="list-style-type: none"> Administrators have full visibility to view the entire fleet of registered printers with the help of a configuration tool
Editable Fax Options	<ul style="list-style-type: none"> The XMediusFAX® Xerox EIP connector provides a way to change fax options (such as priority, sending re-tries and notification settings for the fax being sent)
Simplified interface option	<ul style="list-style-type: none"> The XMediusFAX® Xerox EIP connector can be configured to display its full option interface when composing a fax, or a simplified interface (fax number field only) to enable quick faxing
Multilingual support	<ul style="list-style-type: none"> The configuration interface is now available in English, French and German For ease of use, the user interface is available in 7 languages: English, French, German, Spanish, Italian, Portuguese and Russian

FASTER & EASIER FAXING FOR MFPS AND COPIERS

1. Select XMediusFAX®

At your MFP or copier, simply select XMediusFAX® for automated faxing.

2. Scan Your Document

Scan your document, add the recipient information and the cover sheet will be created for you. The user-friendly Xerox EIP connector captures fax coversheet data, and automatically merges sender and recipient information for faxing through your XMediusFAX® fax server.

3. Send Your Fax

After you send your fax, you will receive a fax transmission status report in your email inbox – no need to wait beside your device. With XMediusFAX®, inbound faxes are sent to your email inbox for handling like any other electronic document on your PC.

ADVANCED FAXING OPTIONS

Extend your faxing power with:

- Active Directory integration
- Addition of users to the phonebook
- User login
- Failed-fax resubmission from your PC

CONCLUSION

The integration of the XMediusFAX® Xerox EIP connector offers numerous benefits to organizations using MFPS for their document management needs. These specially developed connectors allow companies to fully leverage XMediusFAX®'s best in class technology to meet all their faxing needs directly from the console of their Xerox EIP compatible MFP.

¹ Based on the Xerox EIP, XMedius connector is developed in partnership with Solutions LNB Inc.
