

# THE XMedius+AVST MERGER

After a successful business partnership, XMedius and AVST merged to become a trusted provider of secure communications solutions. With complementary territory maps, solutions suites, and target industries, joining forces has been a rewarding experience for the companies' teams, customers, and partners. XMedius now consists of Voice and Data Solutions divisions.

## KEY SECTORS

For a number of years, both XMedius and AVST have been providing **enterprise-grade solutions** to a variety of industries, including Healthcare, Education, Legal, Finance, and Government.

The merger combined the strengths and best practices of catering to each companies' respective global customer base, offering more opportunities for further market penetration.
