TOSHIBA
Leading Innovation >>>

When It Comes To Business Faxing We Have You Covered!

As a global fax industry leader with XM Fax, XMedius is now offering a turnkey fax solution as part of the Toshiba e-BRIDGE technology ecosystem. This virtual fax kit solution is compatible with, and accessible from, a wide spectrum of Toshiba Multi-function Printers (MFPs) and does not require a fax board, physical parts or service labor.

XM Fax App for Toshiba e-BRIDGE MFPs

The XM Fax App enables end users to send or receive faxes directly from a Toshiba MFP, as an option through an email application (Microsoft Outlook, etc.), or a web page from basically anywhere in the world!

Secure Document Sharing on-the-go

With the XM Fax Mobile App, users can now send a mobile fax directly from their iPhone, iPad, or Android device. The mobile fax app is perfect for sending pictures of sensitive documents immediately upon signature from anywhere, at any time. The mobile app is available for free on the App Store and Google Play.

No More IT Headaches

The XM Fax App simplifies and eliminates the burden associated with installation, configuration and maintenance of fax kits by providing access to a redundant, high-availability faxing solution.

TOGETHER
INFORMATION

XM Fax Simplified Workflow

1

If you do not own XM Fax On-Premises license, please note that an account with the XM Fax App for Toshiba MFPs is required to use this app. Contact your local Toshiba reseller to set up an account.

2

Follow the simple set-up wizard for one-time configuration.

3

Compose the fax, scan the document and hit send!
