XM Connect™ is an enterprise-class Unified Communications platform delivering premium Voicemail, Unified Messaging, Mobility, Personal Assistant, Automated Attendant, IVR, Call Center, Fax and Notification applications to companies of all sizes.

Its industry-leading UC interoperability enables organizations to maximize their PBX and email investments by providing seamless integration into multi-vendor environments. XM Connect delivers mission-critical applications to meet ever-changing demands associated with cloud, mobility and security.

**APPLICATION FEATURES:**

- Premium Voicemail with end-to-end security (storage, transport and endpoints)
- Mimics TUI of legacy Voicemail systems to minimize retraining
- Industry-leading Unified Messaging with flexible storage options to meet compliance confidentiality requirements
- Voicemail transcription that can be viewed and searched
- Mobile Client separates personal and business communications; single number reach; mobile number protection
- Speech-enabled command and control to comply with state driving laws and regulations
- First context-aware Personal Assistant to increase call completion
- Speech-enabled Automated Attendant for multiple departments, sites, and time zones
- Informal Call Center supports up to 50 teams and 250 agents with no CTI connection required on the phone system, available in an economically priced offering
- Integrates with XM Fax™ to ensure secure transmission of highly sensitive documents
- Outbound call and text Notification to streamline business processes

**PLATFORM FEATURES:**

- Integrates with leading phone systems (Avaya, Cisco, NEC, Microsoft, Mitel and more) simultaneously
- Delivers Unified Messaging to multiple email systems simultaneously (on-premises and cloud); Exchange, Office 365, Gmail and any IMAP4 compliant email system
- Unmatched scalability - 800 XM Connect Ports and 60,000 users
- Resilient architecture for high availability and disaster recovery initiatives
- Single virtual server and admin environment for Voicemail, Unified Messaging, Call Processing, Mobility, Speech, IVR and Call Center

Cloud Versión Also Available
FEATURES
