XM FAX APP FOR HP WORKPATH

REDUCE COSTS AND ENHANCE SECURITY BY FAXING FROM HP MFPS

Securely transmit documents via Fax over IP (FOIP) directly from HP Multifunction Printers (MFPs)

XM Fax™ delivers a host of business benefits, including improved employee efficiency, streamlined workflows, and steep reduction in total cost of ownership (TCO) over traditional fax. By leveraging the XM Fax App for HP Workpath-enabled MFPs, your organization can now securely send faxes direct from HP MFPs leveraging an HTTPS

connection rather than SMTP – a notable security enhancement over many competing connectors. The app is available for all 3 On-Premises versions of XM Fax, which are tailored for different sized organizations, as well as a Cloud version that is flexible and scalable to suit organizations of any size.

All versions offer the same look and feel and all work with HP Workpath MFPs, making XM Fax an ideal solution for organizations who are planning to migrate to the cloud in the future – there will be no need to re-train employees on a new solution.

Reach out to your HP reseller or one of our experts to learn how XMedius can help support your organization's unique fax and secure file exchange requirements, including faxing from HP MFPs.

WHY USE THE XM FAX APP FOR HP WORKPATH?

XM Fax is designed to deliver superior security and easy administration while boosting productivity and reducing TCO over traditional fax. When used in conjunction with the HP Workpath MFPs, users can leverage the intuitive HP interface to direct deliver faxes to authenticated recipient inboxes, plus access and print their faxes from any network-connected HP MFPs, regardless of location.

SECURITY	INTEROPERABILITY	ADMINISTRATION
<ul style="list-style-type: none"> › Connection between HP MFP and XM Fax is always encrypted › Direct delivery to authenticated recipients prevents mis-delivery › Enables compliance with HIPAA, GDPR, SOX, PCI DSS, FERPA, & more 	<ul style="list-style-type: none"> › Access (real-time) and print faxes from any HP MFP across all office locations › Intuitive HP MFP interface allows seamless interoperability › Fax server features such as phonebook, cover sheet selection, billing codes, and more available within HP MFP 	<ul style="list-style-type: none"> › Flexible user authentication methods › Editable fax options such as fax priority, number of re-tries, and fax delivery notifications › Multi-lingual user interface including English, French and German

Leveraging XM Fax to enable faxing directly from your HP MFPs delivers a host of powerful tools and benefits for organizations in virtually any industry.
